

# West Oaks Animal Hospital, LLC

## Boarding Release Form

Pets being boarded at West Oaks Animal Hospital, LLC are accorded the same treatment that our own pets receive. Any pet admitted for boarding must have current vaccinations for all common diseases. Facilities are cleaned thoroughly and regularly, but in confined conditions one cough or sneeze can travel a good distance. Your own experience with the flu virus is a good example of the ease of infection.

Your pet will be checked for fleas and ticks upon arrival. If any parasites are found they will be given a bath and dip before boarding at the owner's expense.

We hope to make your pet's stay a pleasant one. We walk all dogs twice a day: in the morning and again in the afternoon. If any toys or special blankets will help the time apart, by all means bring them! Special diets and medication can also be brought and will be followed.

Every precaution will be taken to prevent illness, injury, or escape of your pet. This signed form indicates consent for the doctors of West Oaks Animal Hospital, LLC to treat, prescribe medication for, or operate on your pet if the need arises at the owner's expense. It also releases West Oaks Animal Hospital, LLC from any liability.

We hope your pet enjoys his or her stay with us. If there is anything we can do to make the stay more comfortable, please let us know.
